(Please note that there are additional specialty-specific CiPs for Cardiothoracic Surgery, Paediatric Surgery and Plastic Surgery)

Supervision levels

CiP 1

CiP 2

CiP 3

CiP 4

CiP 5

Able to observe only: no execution

I

Able and trusted to act with direct supervision:

The supervisor needs to be physically present throughout the activity to provide direct supervision

IIa

Able and trusted to act with direct supervision:

The supervisor will need to be physically present for part of the activity. The supervisor needs to guide all aspects of the activity. This guidance may partly be given from another setting.

IIb

Able and trusted to act with indirect supervision:

The supervisor may be required to be physically present on occasion. The supervisor does not need to guide all aspects of the activity. For those aspects which do need guidance, this may be given from another setting.

III

Able and trusted to act at the level of a day-one consultant.

IV

Able and trusted to act at a level beyond that expected of a day-one consultant.

V
