

Appendix 5: Courses and other learning opportunities away from the workplace

Some knowledge and capabilities are best gained in the formal setting of a taught course. In Plastic Surgery there is one mandated course.

| Mandated Courses | | | | | |
|--|---|------------------------------------|---|---|--|
| Trauma learning outcomes | Rationale for learning by attendance at a course | Phase of training | GPC | CiP | Examples of ways to meet trauma learning outcomes |
| <p>Demonstrate the concepts and principles of primary and secondary patient assessments</p> <p>Establish management priorities in a trauma situation</p> <p>Initiate primary and secondary management necessary for the emergency management of acute life threatening conditions in a timely manner</p> <p>Demonstrate the skills related to ABCD which are often required during initial assessment and treatment of patients with multiple injuries</p> | <p>Cannot be learned in the workplace to the level required for patient safety</p> <p>Allows a systematic process of teaching a safe and reliable method of immediate management of severely injured patients and comprises a range of comprehensive and adaptable trauma management skills relevant to all specialties</p> | <p>Current throughout training</p> | <p>Domain 2: Professional skills</p> <p>Domain 3: Professional knowledge</p> <p>Domain 5: Capabilities in leadership and team working</p> | <p>2) Manages the unselected emergency take</p> | <p>The Advanced Trauma Life Support® (ATLS®), European Trauma Course, Definitive Surgical Trauma Skills course or equivalent locally provided course(s) meeting the outcomes described</p> |
