

## Appendix 5: Courses and other learning opportunities away from the workplace

Some knowledge and capabilities are best gained in the formal setting of a taught course. In Cardiothoracic Surgery there is one mandated course.

CARDIOTHORACIC SURGERY					
Mandated Courses					
Trauma learning outcomes	Rationale for learning by attendance at a course	Phase of training	GPC	CiP	Examples of ways to meet trauma learning outcomes
To evaluate and manage, including surgical management where appropriate, and as part of a multi-disciplinary team, a patient with cardiothoracic trauma.	<p>Cannot be learned in the workplace to the level required for patient safety</p> <p>Allows a systematic process of teaching a safe and reliable method of immediate management of severely injured patients and comprises a range of comprehensive and adaptable trauma management skills relevant to all specialties</p>	Current throughout training	<p>Domain 2: Professional skills</p> <p>Domain 3: Professional knowledge</p> <p>Domain 5: Capabilities in leadership and team working</p>	2) Manages the unselected emergency take	The Advanced Trauma Life Support® (ATLS®), European Trauma Course, Definitive Surgical Trauma Skills course or equivalent locally provided course(s) meeting the outcomes described
